

STATEMENT OF PURPOSE

I am x from y, India. I have a nuclear family, excluding me I have a father, mother and sister. My father is a businessman, mother is a home maker and sister is pursuing her studies in civil engineering. I am a great enthusiast of photography, travelling, and fitness. I did my advanced diploma in hotel management from International Institute of hotel management in y, and 1 year specialisation course from University of West London. I have opted for hotel management because it is such a booming industry and this is a nice course which has many career options so I got actively involved into bartending. My love for food and beverage grew with each passing day encouraging me to try and learn more everyday. The appreciation received from my family, friends & colleagues kept motivating and inspiring me further.

After completing my course, I worked as a management trainee in X Thailand and after that I moved to India and started working as an associate in X by M, Z for 13 months. It is my dream to become an entrepreneur, and to follow the path of success I need to take a stronger & boulder step in my life, I need to gain strong knowledge to advance in my field and also to get analytical & managerial skills which will help me in future, hence it is the decision to go in for further course in Masters of Business Administration.

Business industry has a critical role in global economy leading to create percentage of jobs worldwide. Also it performs major role in satisfying customer's requirement in one or the other way. Looking at the fastest growing industry, it is necessary to enhance my personal skills and have a strong base in education and work experience.

My choice of pursuing MBA has been motivated by a desire to be a part of my business. When I use to work as Management trainee my zeal towards customer interaction got increased very much. Subsequently, I wanted to pursue my career in sales and marketing but when I moved to India I, due to lack of opportunity/vacancy and some family circumstances lead me to work as an associate in X by T. But now I have this opportunity to study abroad and excel in business field, I am definitely looking forward to boost my skills & knowledge. This career appears to me as one that is most absorbing and challenging and at the same time exciting.

It is my ambition to work as a key player in challenging and creative environment, to be instrumental in organization's growth, to realize my potential and explore myself in productive manner and thus prove myself to be an asset for an industry.

If given an opportunity to be a student of **SAULT COLLEGE TORONTO CAMPUS**, I will be very fortunate to shape my career in advanced manner and I can furnish my knowledge and skills which I gained throughout my experiences. Pursuing this program will also help me to improve my researching, qualitative, self-motivation and analysing skill set. As a result, I can become a better problem solver in future and I would be able to tackle complex projects easily. It will also prepare me for a life of constant learning.

I will obey the rules and regulations set by the university and will focus on gaining maximum out of it.

I believe that education is an empowering process that allows and guides to develop passion, critical thinking, compassion, and orientation towards wisdom for timely action. The quest of knowledge and higher studies is a manifestation of my ambitious aspirations, studying abroad is going to be an even greater challenge, as my experience there will help me gain an understanding of the diverse culture and assist me in adapting to varied situations while being able to solve problems.

Therefore, I believe I will be able to contribute significantly to your institute.
